Technical skills

Languages	Java (proficient), JavaScript, HTML5, CSS3
Frameworks, Libraries, DB	AngularJS, Servlets, Spring, Google Cloud, JavaScript, Angular Material, Android, Wordpress, MySQL, MongoDB
Tools	Linux Mint, Git, Bamboo, Gimp, Lightroom, IntelliJ, Tomcat

Projects

Chat2get - chat2get.com **2013-14**

A discovery and real-time-chatting platform, connecting users to small-business owners.

- Lead developer in a 4 person startup Chat2get (the platform also powers doctive.de).
- Created mobile responsive site, using AngularJS, Bootstrap, Servlets, Tomcat and MySQL.

Websites

- balajitrusions.com - Created website for a cable/wire business, using Wordpress & Google Cloud. **Oct-2015**
- nsfancycolor.com - Created website for a diamond business, using AngularJS & Angular Material. **Aug-2015**
- deepakvadgama.com - Created personal website created using Jekyll and Github pages. **Jan-2015**

Work Experience

Balaji Extrusions - Developer **Oct-2015**

ERP software used by all departments for end-to-end workflow (sales, manufacturing, invoices & delivery).

- Working as a sole developer, on company's internal ERP software, based on Spring MVC.
- Improved performance by 40% and decreased memory usage by 35% by optimizing DB and the code-base.
- Created Android app to stock-out items by scanning barcode; helping reduce carrying load & manual s/w entries.

Nomura - Lead Developer **2013-2015**

- Replaced communication infrastructure across 12 microservices, reducing trader UI restarts by 90%.
- Created build automation tool reducing build times by 80% & saving ~2 days per sprint.
- Delivered a session each on [JavaScript](#) and [Introduction to Cloud Computing](#) at Nomura India level.

J.P.Morgan - Associate Developer **2010-2013**

- Developed data flows (import/export) across 4 applications using Spring Batch and Mule ESB.
- Created reconciliation tool using Mule ESB, saving 1 hour of manual reconciliation per day.
- Mentored 4 DB developers for 6 months on Java and internal application framework.
- Delivered a session each on Mule ESB, HTML5 and [Introduction to Hadoop](#) at JPMC India level.

HSBC - Senior Software Engineer **2006-2010**

- Worked as an onsite coordinator for 9 months, based out of Buffalo, NY (offshore team of 7).
- Developed 2 internal web applications used by analysts for maintaining HSBC Ads data.
- Developed a JSP library for pagination of records fetched from DB, to fix UI memory issues (used in 3 projects).

Recognition

- Received quarterly team award in 2015 at department level (300 employees).
- Nominated for 'Employee of the year' award in 2011 (out of 1200 employees).
- J.R.D. Tata Scholarship for Academic Excellence (2003 - 2004).

Education / Certifications

- Udacity - Android Developer Nanodegree **In progress**
- Mumbai University, India - Bachelor of Engineering, Computer Science **2002-2006**
- Sun Certified Web Component Developer 5.0
- Sun Certified Java Programmer 5.0
